## Nixon Declares Johnson Should Discipline Demos

WEST BRANCH, Iowa UPI—President Johnson should crack down on Democrats who do not support his Viet Nam policies, former Vice President Richard M. Nixon said Tuesday.

Nixon, speaking at ceremonies honoring the late former President Herbert C. Hoover, also called for stepped up air and sea attacks on North Viet Nam while at the same time fostering people-to-people aid to the North Vietnamese.

"The President should discipline his own party and those members of it who oppose his Viet Nam policy," Nixon told newsmen of his arrival in Iowa at the Cedar Rapids airport.

The former Republican leader singled out Senate Majority Leader Mike Mansfield of Montana and Senate Foreign Relations Committee Chairman William Fulbright as two leading Democrats who should be "disciplined" by Johnson for not supporting the administration's Viet Nam program.

Nixon also accused Johnson of hitting "the wrong target" last week when the President accused an unnamed Republican leader—believed to be House Minority Leader Gerald Ford—of betraying and distorting Johnson's confidence following a Viet Nam strategy briefing.

"Rather than criticizing Gerry Ford, who has supported his policy publicly, he should direct his criticism to those of his own party who oppose his policy," Nixon said.

An estimated 22,000 persons crowded into the Hoover Memorial Park to hear Nixon and former Republican President Dwight D. Eisenhower speak in honor of Hoover, who was buried in the park a year ago near the still-standing cabin where he was born 91 years ago.

## Quints' Mother Leaves Hospital

WELLINGTON, New Zealand UPI — Mrs. Shirley Lawson, mother of New Zealand's first set of quintuplets, left the hospital today but did not take her babies home with her.

The thriving infants, despite their good health, will remain under hospital care for some time.

Before leaving the hospital, Mrs. Lawson bottle fed two of the quintuplets, the first of her babies she has been allowed to touch.

## Mrs. Dobich To Testify

INDIANAPOLIS UPI—Mrs. Mary Dobich, the 25-year-old widow of the central figure in a multi-million-dollar securities scandal, and the vice president of the securities firm involved today were scheduled to testify at a bankruptcy hearing in federal court.

Mrs. Dobich, who was present for the opening day of testimony in the Indianapolis courtroom Tuesday, quietly repeated "No comment" to inquiring newsmen as she entered and left the courtroom Tuesday.

Bankruptcy referee Paul Pfister heard testimony from

## Man Drowns In Lake Holiday

CRAWFORDSVILLE UPI—George Smith, 42, Indianapolis, drowned in Lake Holiday south of Crawfordsville Tuesday.

Authorities said Smith, who had been spending a week at Lake Holiday on a vacation, drowned when a boat in which he and two younger companions were riding capsized. They said the father was one of the companions swam out to the scene, but could not find the victim in the water.

Police recovered the body a short time later.

## Parolee Sought In \$3,600 Theft

GARY UPI — Authorities searched today for a West Virginia parolee missing from an office position at the Gary Salvation Army headquarters along with \$2,000 cash and a \$1,600 coin collection.

Salvation Army officials filed an affidavit with the Lake County prosecutor charging Harvey Carmack, 37, with theft of property. They said Carmack was gone along with the money and coins when Maj. Earl Sunderland returned from vacation.

Officials said Carmack was paroled from a prison term in West Virginia on a forgery conviction and was given a job at Salvation Army headquarters with access to a safe where the valuables were kept.

## Musician Dies

HOLLYWOOD UPI — Funeral arrangements were pending today for pianist and orchestra leader Freddie Slack, 55, who popularized "Mr. Five By Five" and "Cow Cow Boogie." Slack was found dead Tuesday night in his apartment.

## Father Dies

Dr. James C. Lett has been called to Knoxville, Tenn., by the death of his father, Joseph William Lett.

only one witness Tuesday as the hearing got off to a slow start.

Alexander Moore, 46, the man named president of the now-bankrupt Dobich Securities Co. of Indianapolis, Tuesday admitted under questioning that the company had a form letter made up because of the amount of complaints it received.

Many of the persons who received the letter were in the courtroom Tuesday, attempting to get back a part of the \$2.9 million they paid Dobich for stock in the Midwestern United Life Insurance Co. which they never received.

Pfister said Tuesday he also would hear testimony today from Jack Kitzmiller, vice president of the firm. Pfister Tuesday ordered Moore to turn "any and all records you may have in your possession or control" over to Donald Buttrey, receiver and newly-elected trustee for the creditors.

Buttrey drew from Moore Tuesday the admission that Moore had taken some papers from his desk at the company's offices in Indianapolis.

## 50 Miles Up

SDWARDS AFB, Calif. UPI — Air Force Capt. Joe Engle flew the X15 more than 50 miles high Tuesday to test metal stress to aid in the design of a planned supersonic transport plane.

Engle, who recently became the nation's third winged astronaut for exceeding the 50 mile altitude minimum, achieved a speed of mach 4.7-3,545 miles an hour — in Tuesday's successful flight.

## TV Star Ill

HOLLYWOOD UPI — Raymond Burr, star of the "Perry Mason" television series, was released Tuesday from Cedars of Lebanon Hospital, where tests revealed he had no amoebic infection.

Burr was scheduled to undergo several weeks of treatment, a spokesman said. However, it was anticipated Burr would be able to meet all his professional commitments.

## Refused Circus, Boy Hangs Self

PITTSBURGH, Kan. UPI — An 11-year-old boy, angry because his mother would not let him go to the circus, apparently hanged himself Tuesday.

Mrs. Mitchell Wylie returned home after taking three other children in the family to the circus and found her son, Tommy, hanging from a tree in the backyard. She told police Tommy misbehaved earlier and, for punishment, she refused to allow him to go to the circus with the rest of the family.

Dr. W. G. Rinehart, Crawford County coroner, said Tommy apparently climbed a tall tree in the backyard, made a noose with a lawnmower cord, slipped it around his neck and jumped from the tree. Rinehart ruled the death a suicide.

## Soviet Trawler Aids Viet Cong

HONOLULU UPI — A Russian trawler, which has been a fixture three miles off the entrance to Guam's Apra harbor since December, apparently is providing Viet Cong guerrillas in South Viet Nam with early warnings of B52 raids launched from Guam.

Pacific forces headquarters here declined Tuesday to make any specific comment about the trawler, which is fitted with elaborate radar gear and is in a perfect position to observe the Strategic Air Command bombers as they take off from Anderson Air Force Base at the north end of Guam.

Under ideal conditions, the trawler crew could give the Viet Cong about three and one-half hours advance warning of an impending raid—the flying time from Guam to South Viet Nam.

Then he pulled the trigger. When the gunsmoke cleared, one of the holdup men lay dead and another critically wounded. Police said Charlie fired one blast from a 7.35 mm Italian army rifle he had discreetly tucked away in the washroom for just such an occasion. The slug passed through the first hood, fatally wounding him, and slammed into his partner. The third man grabbed \$300 and ran.

Charlie should be pretty accustomed to the routine. Over the past 20 years, he's been held up 30 times—and during the same period, he wound-

## Respect For Dead

WESTPORT, Conn. UPI — A hearse, speeding down the Connecticut Turnpike at 75 miles per hour, was halted by state police Tuesday. The vehicle bore a body bound for New York City.

"You people have no respect for the dead in this state," snapped the driver of the hearse.

"Yes, we do," replied Sgt. Donald Waite of the radar patrol. "That's why I stopped you."

## Outearns Boss

JOHNSON CITY, Tenn. UPI — Assistant City Manager Jack Strickland, who's just received a \$5,000 - a - year raise, now makes more than the boss — \$6,400 more.

City Manager David Burkhalter, however, has given his blessings to Strickland's \$16,000 annual salary. Burkhalter's salary was frozen at \$9,600 by the voters. No limit was placed on his assistant's wages.

WASHINGTON UPI — President Johnson's five-part briefing on Viet Nam for members of the House and Senate appeared today to be producing the consensus he sought on Capitol Hill.

The Chief Executive scheduled a final briefing in the White House series for the remaining members of the House. He held two for House members Tuesday, and two for the Senate Monday.

For the time being at least, Johnson seems to have converted all but the most diehard critics of his Viet Nam policy into believers.

House Republican Leader Gerald R. Ford, Mich., who has pushed for stronger military measures, said after Tuesday's briefing that it was "helpful." He added that no commitments were asked for, nor were any given.

The briefing was the first face-to-face encounter between Johnson and Ford since the President's charge of a violation of confidence. The two men shook hands, according to Ford, but neither brought up the controversy. Ford said he hoped the incident was ended, and believed that it might be.

Speaker John W. McCormack, D-Mass., told newsmen after the session that no disagreement was evident at the briefing he attended, and that the American people were more united over the Viet Nam fighting than they were in the pre-World War II period.

## Don't Try To Rob Charlie

NEW YORK UPI—If there is just one place would-be bandits should avoid, it's Charlie's grocery and delicatessen—but they just can't seem to get the message.

Tuesday night three men entered the little shop at 1438 Lexington Ave. in Manhattan's Spanish Harlem and leveled a snub-nosed revolver at proprietor Charlie DiMaggio.

They ordered the 65-year old, short, balding shopkeeper into the washroom and started to dip into the cash box.

Charlie, peering out through a peep-hole he had cut in the door, waited for his chance.

## White Voters Outnumbered

By United Press International

White domination of politics in many areas of the Deep South began crumbling today with the unlimited registration of Negro voters.

Federal registrars signed up hundreds of Negroes Tuesday in nine counties the Justice Department said had a record of habitually denying Negroes the right to vote.

The Justice Department intensified its attack on voter discrimination filing suits in Virginia, Alabama and Texas seeking to halt the use of a poll tax as a requirement for voting.

Before the sun went down parts of Dixie were in for irrevocable political change.

Across the South, where Negroes outnumber whites, politicians anticipate a definite, if not sweeping change, in local politics.

The Negro vote will have a strong bearing on statewide and national politics and, if strong enough, may play a major role in changing the century old conservative domination of the area.

## Ships Deployed For Spaceflight

CAPE KENNEDY UPI — A fleet of 28 ships was being deployed today to positions around the world to support America's record-breaking eight-day Gemini-5 spaceflight set to start Aug. 19.

Lt. Gen. Leighton I. Davis, Department of Defense manager for the Gemini support operations, said that by launch day, about 10,000 men will be on station around the globe to participate in the orbital voyage of astronauts L. Gordon Cooper and Charles Pete Conrad.

Although the space pilots are scheduled to land on their 122nd revolution in the Atlantic Ocean 500 miles southwest of Cape Kennedy, ships and planes will be stationed across the Atlantic and Pacific to be on hand if an earlier landing is necessary.

ed a half dozen of his assailants and killed three—including his latest quarry.

Detectives said the mortally wounded man, tentatively identified as Earl Hickson, about 30, staggered out the door and fell dead on the pavement outside.

The second man managed to run a couple of blocks down Third Avenue before collapsing into the arms of four radio car patrolmen.

Asst. Dist. Atty. John J. Sheehey said there were no plans to file charges against Charlie. A man's delicatessen is his castle, you might say.

SAIGON UPI — An emergency airlift brought a steady stream of American paratroopers today to Pleiku, where a showdown battle for the relief of a besieged U.S. Special Forces camp at nearby Duc Co was in the making.

U.S. Air Force fighter planes bombed and strafed jungle hideouts along strategic Highway 19, flying over for a surrounded, bogged-down Vietnamese relief force.

The bodies of more than 250 Viet Cong rebels were counted on the battlefield in the central highlands. Government losses were "moderate" in the prolonged fighting.

The three-mile-long relief column snaked its way through Viet Cong road blocks and traps in an attempt to reach the camp where 13 American advisers and government forces have been battered by the Communists for more than two weeks.

Five to seven miles from the Duc Co camp, which is only five miles from the Cambodian border, the relief column found itself cut off and surrounded by an estimated regiment of Communist troops, believed to be North Vietnamese regulars.

A swarm of C123 transports brought troops of the 101st U. S. Airborne Division into Pleiku, where they are being held in reserve until a decision is reached on whether to send them to the aid of the Vietnamese relief force.

One American officer said the action was shaping up as a "showdown battle" with the Viet Cong to prevent the Reds from getting complete domination of the vital highway. It runs east-west through the central highlands from the South China Sea to the Cambodian border.

The Duc Co camp is the last remaining Vietnamese toe-hold on the western leg of the highway, about 240 miles north of Saigon.

U. S. intelligence reports indicate the Communists want to wipe out the Duc Co camp so they can use the road to infiltrate arms and men from the north via Cambodia.

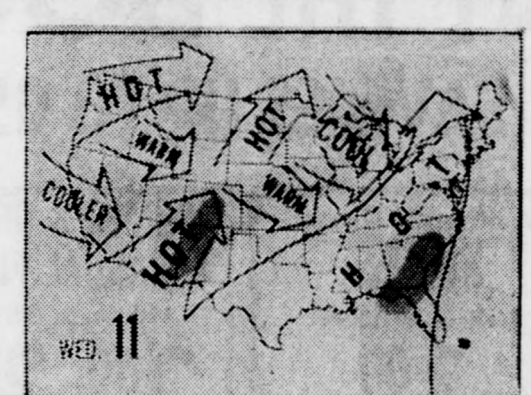

## Professor's Son Traffic Victim

The death of the son of an Indiana University professor in a car - train crash Tuesday has pushed the 1965 Indiana traffic toll to at least 839, compared with 737 a year ago.

Authorities said Ronald Riggs, 16, Bloomington, whose father, Frederick, teaches government at Indiana University, was killed when he passed a state highway truck and collided with an Illinois Central freight train at a crossing near Indiana 46 east of Bloomington.

Police said the youth apparently did not see the train.

## Editorial-Wise High Market Ratings

Many of this newspaper's readers are probably not aware that Greencastle and Putnam County have high market ratings in Indiana.

According to a survey by Sales Management Magazine, Indiana's rating is 100. Greencastle's market rating is 138 and Putnam County's rating is 93. Greencastle ranks with the top markets in all Hoosierdom.

Now many people do not particularly care for figures but the following statistics as compiled by Sales Management Magazine should be of considerable interest to every adult citizen of this city and county:

	1964	1963	1962
Population			
Putnam Co. ..	25,600	25,400	25,500
Greencastle ....	8,700	8,700	8,600

Greencastle .....	\$9,193.00	\$8,784.00	\$8,860.00

These statistics all point to the fact that Greencastle and Putnam County are really top communities in which trade. Why take local and county money and spend it in Indianapolis or Terre Haute when you can do just as good, and in many cases, a great deal better than in other cities?

This article is actually blowing Greencastle and Putnam County's horns.

Why not trade at home and keep your money at home? This will help each and everyone of us in the long run.

## Seek Backing of Neutral Nations

GENEVA UPI — Communist China is conducting a whispering campaign here to influence neutral nations at the 17-nation disarmament conference, it was learned today.

Red Chinese diplomats are quietly contacting non-aligned officials at cocktail parties and receptions in Geneva to push the Peking line.

Previously Peking has avoided any and all contact with delegates to the conference which it contends is a "conspiracy" between the Soviet Union and Western "imperialists."

Now, however, the Chinese Embassy in Bern and the Peking consulate in Geneva have become active on the conference sidelines.

Neutral sources said the Chinese are also making themselves heard in the home capitals of the eight non-committed countries attending the disarmament talks.

The Peking officials are telling the neutrals that the conference serves no useful purpose.

## Bible Thought

Not everyone that saith unto me, Lord, Lord, shall enter into the kingdom of heaven; but he that doeth the will of my Father which is in heaven. Matthew 7:21.

Profession is not enough. Doing is what counts. The test of our faith is found in our obedience to the Lord. Then, there will be no disappointment in the judgment.

Postpone Finesse  
In Opponent's Suit

By Alfred Sheinwold

It usually pays to postpone a finesse in the enemy's suit. Sometimes the finesse goes away if you pay no attention to it. Sometimes you are saved because the missing high card turns out to be a singleton or part of a doubleton.

When West leads the ten of hearts you are tempted to play dummy's jack. Even if East produces the queen, you can still win with the ace.

This is no advantage. If you take that first heart trick so full of honors, West is just one trick away from establishing his suit. He gets in with one ace to force out the king of hearts, and West gets in with the other ace in time to defeat the contract with the rest of his hearts.

You can make the contract by playing a low heart from dummy at the first trick instead of the jack. Take the ace of hearts and lead a minor suit.

If East has one of the missing aces and you happen to lead that suit first, he will be unable to lead hearts up to dummy's king-jack. To put it another way, the finesse may go away if you pay no attention to it.

USEFUL SHORTNESS  
In this case West has both aces and therefore gets in no matter which suit you lead first. West continues with another heart, and this time you try the finesse with dummy's jack (since you cannot tell that the queen is blank.)  
"Big deal," you complain. "What's the difference between losing to the queen of hearts early or late?"

The difference is game. When you lose the heart finesse late, East is out of hearts and cannot return the suit. No matter what East returns you have time to force out West's ace and thus make sure of ten tricks.

## SUPER SANDWICHES SPOTLIGHT SUMMER MENUS

It's sandwich-time again... as America's favorite mealtime and snacktime food zooms into increased popularity as the outdoor season reaches its peak. So easy and convenient to prepare, sandwiches are a boon to you homemakers, too, who would rather be out of doors sunning than inside the kitchen cooking.

Canned chicken gravy really speeds preparation along in these Chicken Sandwiches Deluxe. Chicken and tomato, layered on crunchy club rolls, meld delectably with the gravy which is glorified with garlic and green pepper.

Lunch or supper go-alongs include a vegetable relish tray, fresh peaches a la mode, and a pitcher of frosty iced tea.

## Chicken Sandwiches Deluxe

2 brown and serve club rolls  
2 tablespoons green pepper  
1 clove garlic, minced  
1 tablespoon butter or margarine

1 can (10% ounces) chicken  
gravy  
Cooked chicken slices (enough  
for 4 sandwiches)  
8 slices tomato  
Salt  
Pepper

Prepare rolls as directed on package; split and toast. In saucepan, cook pepper and garlic in butter until pepper is tender. Add chicken gravy. Heat, stirring now and then. Arrange chicken and tomato slices on rolls; season to taste with salt and pepper. Broil a few minutes. Four sauce over. Makes 4 open-face sandwiches.

## Sinatra's Yacht At Newport, R.I.

NEWPORT, R.I. UPI — The rented pleasure yacht of Frank Sinatra was back in Rhode Island waters today, its cruise to Martha's Vineyard Island saddened by the drowning of a crew member.

The 168-foot yacht Southern Breeze left Vineyard Haven Tuesday night as the Coast Guard continued an investigation into the loss of third mate Robert S. Goldfarb, 23, of the Bronx, N.Y.

The yacht was scheduled to berth at The Mooring here later today. It was forced to drop anchor during the night because of fog.

Aboard the yacht with Sinatra, 49, were television starlet Mia Farrow, 19, and actresses Claudette Colbert and Rosalind Russell.

Goldfarb drowned in the choppy waters off Vineyard Haven early Tuesday. He had given a life jacket to James O. Grimes of Ireland, a non-swimmer and fellow crewmate of the Southern Breeze, when the eight-foot dinghy in which they were riding capsized. Two girls, also in the dinghy, swam safely to the yacht.

## Woman Is Elected By Republicans

RUSSIAVILLE, UPI — The mother of former Indiana State Treasurer Robert E. Hughes overcame a slight Democratic trend to become the only Republican elected in Russiaville's first town election.

Mrs. Mabel Hughes, seeking to be the town's first clerk-treasurer, defeated Mrs. Gertrude Younklin, a Democrat, 147 to 129, according to unofficial returns compiled after votes from 277 of an estimated 350 to 400 eligible voters were counted here Tuesday night.

The returns were to be filed today in Howard County Circuit Court at Kokomo and presumably for checking later by a canvassing board.

Russiaville took on the status of a town after the Palm Sunday tornado last April 11 devastated the unincorporated community, forcing a complete rebuilding program.

Five Democrats were elected to the town board, unofficial results showed. But the margins in two of the races were extremely close.

## Don't Destroy Your Draft Card

WASHINGTON UPI — The House, looking ahead to this Fall's increased draft calls, moved Tuesday to jail those who destroy draft cards.

It also passed without dissent a \$1.7 billion appropriation to push construction work at defense bases at home and abroad. Both measures now go to the Senate.

Rep. L. Mendel Rivers, D-S. C., handling the bill to get tough with youngsters threatening to burn their draft cards, denounced scattered youth groups demonstrating against U. S. policy in Viet Nam.

In some cases the peace demonstrators have called for burning of draft cards as a symbol of defiance. It was at this threat the bill was aimed.

Alteration or forgery of draft cards already is a federal offense, punishable by fines up to \$10,000 and jail terms up to five years. Tuesday's bill, extends this punishment to one who "knowingly destroys" or "knowingly mutilates" his draft card.

## Jobless Decrease

INDIANAPOLIS UPI — The Indiana Employment Security Division Tuesday announced that claims for unemployment compensation went up 4.7 per cent last week over the week before.

Director Lewis F. Nicolini said, however, that the claims remained 26.5 per cent lower than in the corresponding period a year ago.

Nicolini said 21,195 claims were filed last week compared

with 20,240 a week earlier and 28,854 a year ago.

## High And Low

NEW YORK UPI — The highest temperature reported to the U. S. Weather Bureau Tuesday, excluding Alaska and Hawaii, was 110 at Blythe, Calif. The low this morning was 38 at Alpena, Mich.

## Cuban Held For Shin Slavings

MIAMI UPI—A swarthy, pro-Castro Cuban sailor was held for a murder charge today in the slayings of his captain and four shipmates aboard the freighter Seven Seas.

Authorities said Robert Ramirez confessed he killed the five seamen because they disputed his political views. He left unsolved the whereabouts of a crewman still missing. Another sailor survived the carnage by hiding in the ship's bilge.

Ramirez was found in a life

boat Tuesday by the German freighter Bellavia about 60 miles south of Miami. Ramirez carried a fully loaded revolver, knives and a supply of bullets. The fiery Latin was described by a former skipper as "a heavy drinker and a woman chaser, but a good sailor."

The missing crewman was the ship's cook, Gerald Davison. A Coast Guard spokesman said there were no immediate plans to launch a search for Davison, who may have jumped overboard in panic.

Another crewman, Elvin Burywise, a 17-year-old Honduran, often talked with Ramirez about his former life as a lobster fisherman in Cuba and about his family. This may have saved his life.

Ramirez told authorities he did not attempt to harm Burywise because he had never argued with him about Cuban politics.

Burywise hid in the ship's anchor locker for 14 hours after the slayings Saturday night. He emerged after a Coast Guard cutter pulled alongside the seemingly lifeless ship Sunday.

## Teenager Likes To Live High

FORT WAYNE UPI—A 19-year-old Fort Wayne youth told a judge here Tuesday that he spent \$7,500 in the last four months because he "liked to live well."

Samuel David Jarrett pleaded guilty to a charge of vehicle taking filed against him last May 9 after he wrecked the car at a speed estimated at 100 miles per hour.

Jarrett said he stole the car because he had "used all the money up." He told Judge W. O. Hughes in Allen Circuit Court that he had inherited the funds from his parents who died several months ago in an automobile accident.

The youth said he spent the money "just traveling around" and that he "stayed in the finest hotels and ate the best food."

Hughes said he would sentence Jarrett on the auto theft

charge Sept. 27, but that Jarrett might not be "living too well" after that date.

## Indian Police Fire On Crowds

NEW DELHI UPI—Police fired on crowds in the eastern state of Bihar Tuesday to prevent looting by mobs angered by food shortages and rising prices, it was reported today.

Reports received here said 30 persons were injured, two seriously, in Begusarai and Bihta township. Bihta is 20 miles from the state capital of Patna.

T. S. George, the editor of the Searchlight, one of India's oldest English language daily newspapers, was reported arrested in Patna early this morning. It was believed the arrest was made under emergency defense rules for articles strongly critical of the government's handling of riotous mobs in the state capital last Monday.

Mob violence was reported

from a total of 11 Bihar towns Tuesday.

Reports said angry crowds attacked railway stations and government offices, looting both government and private grain depots.

## Furnish Scarce Drug For Girl

EVANSVILLE, Ind. UPI—Two Indiana drug manufacturers joined forces to furnish a scarce drug for an infant girl suffering from a metabolic defect in Lisbon, Portugal.

The 6-week-old child has a phenylketonuria, an inherited inability to properly metabolize a certain amino acid.

The Ames Co., Inc., a subsidiary of Miles Laboratories, Elkhart, and Mead Johnson & Co., Evansville, sped emergency supplies of a drug to Portugal until regular supply sources could be established through Portuguese customs.

Ready To Sign  
GENEVA UPI—Russia said

today it is prepared to sign new disarmament agreements with the West regardless of the war in Viet Nam.

Soviet disarmament negotiator Semyon K. Tsarapkin made it clear, however, that such agreements depend on the West meeting other Soviet conditions.

## Singapore Will Be a Republic

SINGAPORE UPI—Premier Lee Yew announced today that Singapore, which seceded from the Malaysia Federation this week, will become a republic in the near future.

He said the island-state broke with Malaysia to escape the danger of a racial "blood bath" or a Moslem holy war.

Announcing that Singapore will assume republic status, the premier said "there are no Chinese, Malay or Indian kings in Singapore."

Until the break Singapore was one of the four states that made up Malaysia, a limited constitutional monarchy.

In another development, the state of Sabah announced today it would remain part of Malaysia despite Singapore's withdrawal.

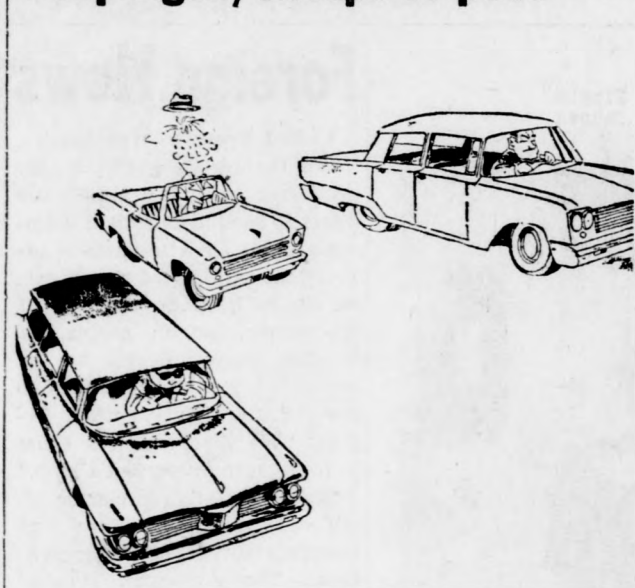

Sabah State Chief Minister Peter Lo told United Press International in Kuala Lumpur "We are prepared to remain in Malaysia—we must try to make Malaysia work."

Maylasia was formed by the union of Malaya, Singapore, Sabah and Sarawak.

Sarawak leaders previously announced their intentions of staying within the federation.

## STILL THE RULE

Keep right, except to pass

AMERICAN TRUCKING ASSOCIATIONS, INC.

That little guy in the middle looks slightly perplexed as autos zoom around him on both sides. That fellow on the far right must be completely off the pavement. Of course, he shouldn't be there, but the little convertible was clogging up the passing lane and he got impatient.

This is the kind of unthinking behavior that breeds accidents, warns J. E. Nicholas, general manager of the Indiana Motor Truck Association. On four-lane highways the inner lanes should be kept open for faster traffic to pass. These lanes are not for dawdlers, says Nicholas. Don't you be a dawdler.

## Heavy Rainfall In New England

By United Press International

A long line of thunderstorms moved along the East Coast today, bringing drought relief in New England but raising the possibility of floods in Maine.

A mass of cold air sent tem-

peratures dipping into the 40's across the Great Lakes.

A violent storm hit Augusta, Maine, Tuesday night, dumping more than 6 inches of rain on the city in little more than two hours. Winds hit 62 miles and hour and hail an inch thick fell.

Houlton, Maine, received more than an inch of rain Tuesday and the weather bureau said thundershowers were con-

tinuing early today.

President Johnson meets later today with Federal, state and local officials to discuss the severe drought situation in the northeastern states.

Heavy storms rumbled across the Gulf Coast early today, hitting Milton in the Florida Panhandle with 2.36 inches of rain in six hours.

## BANNER ADVERTISING PAYS

Careful planning can make a laundry room both efficient and pleasant to work in, say the experts interviewed by Building Supply News. This one features easy-to-reach appliances, plenty of storage bins, a soaking tub, a sewing repair desk, and bright decorative touches.

## Good Laundry Room Needs More Than Washer, Dryer

It takes more than a washer and dryer to make a home laundry.

To be really efficient, say specialists from leading laundry appliance manufacturers, the home laundry must be as carefully planned as the kitchen.

In interviews conducted by Building Supply News, a group of experts declared that location of the laundry area is of primary importance. But whether it is centered in the basement, kitchen, bathroom or in a hallway, it ought to have the right kind and amount of work space, adequate storage space and room for supplies.

If the location is convenient, it probably will be exposed to visitors' eyes. It is also a place where the homemaker will spend many working hours. For these reasons, the laundry area should be pleasant to look at and work in.

The laundry should be well organized, with bins to collect soiled clothes, countertop space for sorting, washer and dryer placed side by side, and racks for hanging wash-and-dry fabrics and freshly ironed clothing. Extras could

include a soaking tub, a sit-down space for quick sewing repair jobs, and closets to store freshly-laundered linen.

When it comes to equipment, the homemaker should consider her own needs and preferences. She may, for instance, want the most automatic appliances available. Or she may work better with machines that have manual controls.

Because a well-planned laundry center will lessen a homemaker's workload, it is an important part of any home improvement program.

Building supply dealers can advise homeowners on the choice of proper materials and equipment, including floor, wall and ceiling materials, water heaters, cabinets and countertops, lighting fixtures, doors, trays and bins.

For example, the floor should be able to stand the gaff of occasional spills of water and laundry supplies. You may want to consider an acoustical ceiling. And when it comes to doors, keep in mind that louver types will keep storage bins ventilated and folding types are great space savers.

## Paint Quiz Will Brush Up Your Style

Have you ever been stumped by the question of whether a high gloss or flat finish paint is best for a particular painting job?

If so, you posed one of the questions most commonly asked of building materials dealers on the subject of paints and painting, according to Mrs. Maxine Livingston, consumer merchandising consultant to Building Supply News.

The question, says Mrs. Livingston, usually in-livinghouse, indicates a concern about the paint's washability. The answer is that many of today's flat finish paints are wash-

able, so the type of finish is often a matter of personal preference.

Other things people want to know about paints are:

Q. Do I have to use a primer with every paint?

A. No. Most paint manufacturers indicate on the container whether a primer is required. If not, the dealer can help you decide.

Q. What kind of paint should I use on the walls of my kitchen and bathroom?

A. Semi-gloss paints and enamels are frequently used, but a primer or sealer may be necessary unless the surface has been previously finished. Rubber base and emulsion paints are also good choices for kitchen and bathrooms.

Q. Can I use the same paint on exterior and interior walls?

A. Generally, no. Because

of recent developments in latex paints, many consumers are under the impression that any latex paint is suitable for either interior or exterior use, but some latex paints are formulated only for interior use and some only for exterior use.

Q. Are spray-on paints as easy to use as the ads say? Do they cover well?

A. Aerosol or spray-on paints are gaining fast in popularity because they are so easy to use. To demonstrate the qualities of these products, many dealers now set aside a small test area for customers who want to try a spray paint and see for themselves.

Q. Shall I use a paint brush or roller? Do I have to use special brushes for certain types of paint?

A. It's not the type of paint that determines the choice of brush, but the area to be covered. For example, a 2 1/4-inch brush is right for woodwork and trim; 4- to 6-inch brush for wood siding or other large areas; long-handle roller for stand-up painting, and short-handle roller for more precision painting.

Q. What color is best for a room that faces north, south, east or west? What colors are most popular? What color schemes are best?

A. The answers to questions about color could fill volumes. The best answer to your particular color problem can be supplied by your building supply dealer, who has the manufacturers' charts and booklets on color and can give you expert advice.

## Foreign News Commentary

United Press International

We the people got it in the neck last week in a lost-cause effort to remind President Johnson and his Great Society senators that the United States was set up to be a government of the people, for the people and by the people. People is the key word in the Preamble to the U.S. Constitution which begins: "We the people, in order to form a more perfect Union."

This simple statement in itself constitutes a definite and complete concept of government. The American system!

We the people got it in the neck when Johnson's Great Society U. S. senators voted against this American system. The vote came on a proposal by Sen. Everett McKinley Dirksen to submit to a continuing vote of the people of each state the question whether both Houses of its legislature should or should not be apportioned according to the Supreme Court's remarkable rule that population must be the sole determining factor.

The court ruled last year against apportionment of one House on the basis of geography or other characteristics not directly related to population. In his dissent from this rule by Chief Justice Earl Warren and the court majority, associate Justice Felix Frankfurter warned of danger ahead.

Frankfurter said that if the federal judiciary involved itself in this essentially political problem of determining the relationship between population and representation, it would generate friction and tension in federal-state relations. That tension and friction are now present.

Dirksen's proposal for a continuing plebiscite on representation in each state was the American way. He merely sought to appeal the question to the court of last resort — the people. His amendment would have provided:

—That an apportionment plan based on any factor other than population would have to be approved by the voters of the state.

—That any nonpopulation plan submitted to the voters would be accompanied by an alternative plan substantially based on equality of population to assure the voters a choice.

—That at intervals of 10 years after each national census the voters would have the right to decide whether to retain or to abandon the plan previously adopted.

Dirksen argued that the people should be trusted to decide how they wanted their legislature apportioned. He should have challenged also the arrogance of the Great Society in refusing to submit the peoples' legitimate business to the people.

## Survey Shows Buying of Paints Is a Name Game

How do people buy paints? By brand name generally, a trade magazine survey showed.

Seven out of ten building supply dealers covered in a survey conducted by Building Supply News reported that brand names were more important for paints than for most other products.

In fact, 52 percent of the dealers said the customer usually asked for a specific brand. If the brand requested was not carried, most customers bought the brand recommended by the dealer.

The Building Supply News survey found that 85 percent of all lumber and building supply dealers carry painting and decorating products, supplies and equipment.

Paint sales by these dealers are approaching an estimated half billion dollars annually. Sixty percent of these sales are to homeowners, 28 percent to building and painting contractors, nine percent to farmers and the remaining three percent to industrial clients.

Nine out of ten dealers who maintain a paint department carry several types of exterior and interior paint finishes, patching and caulking compounds, removers, thinners, brushes and rollers.

Today's bathrooms are as fancy as they are functional, thanks to the woman's touch. Building Supply News says women make most of the decisions when it comes to bathroom remodeling. Photo shows the bathroom features they want most.

## Woman's Touch Is Found In High-Style Bathrooms

If bathrooms have gone from plain to fancy, blame—or credit—the women. That's the way the ladies want them.

Building Supply News, a trade publication, says women make most of the decisions when it comes to bathroom remodeling. The magazine advises building supply dealers to cater to women's preferences if they want to increase their sales.

Some of these preferences are so strong as to be virtual mandates, the publication found.

For example, an overwhelming majority of women want wall-hung toilets, round or oval lavatories, built-in vanities, and built-in lavatories and countertops in their bathrooms.

There is also strong opinion for single faucets, colored fixtures, plastic laminate countertops, chrome hardware and ceramic tile walls. Surprisingly, many women prefer a

wall-hung mirror to a cabinet, and would like a bath tub of different length than the standard five feet. All seem to want bathroom windows placed so as to give maximum privacy and ventilation.

While women respond most readily to new products or appliances which combine beauty and practicality, they would also like luxury bathroom accessories such as ceiling sun lamps, built-in scales, laundry chutes, pull-out hoses for hair washing, and even magazine and book shelves.

The women's vote is high in favor of large bathrooms with compartmented areas and enclosed stall showers. Where the size of the house and finances can afford it, there is a growing trend toward extra bathrooms such as a private master bath, a dressing room-bathroom combination, and, in some cases, a bathroom-laundry combination.

## Oldtime Lumber Yard Is a Supermarket Now

Ever wonder what happened to the old lumber yard? They turned it into a supermarket. Not the kind where they sell food, but where they sell roofing, siding, ceiling tile, insulation, faucet washers, lawn mowers, floor tile, wallpaper, fertilizers, power tools, air conditioners, paints, toasters, screwdrivers, bathroom fixtures, automatic dishwashers, swimming pools, lighting fixtures, sundry nuts and bolts—in fact, just about everything in building supplies, including the kitchen sink.

Yes, you can still buy lumber there. Only today you can do it to the background of blaring music and with the aid of a shopping cart.

It's all part of a marketing revolution that has prompted Building Supply News, the industry's trade publication, to describe today's \$10 billion-a-year retail building supply business as a "Changing Giant."

A decade or two ago, a man would never dream of sending his wife out to buy lumber. Today he could. In fact, says Building Supply News, many men do.

This is because the atmosphere has changed. Many building supply dealers say on some days women customers outnumber the men. The girls

make many of the buying decisions, and they're frequently sent for supplies while hubby is busy at home with a do-it-yourself project.

The Bureau of Census estimates that there are 28,000 building supply outlets in the nation. They do an average business of \$280,000 annually. The number of building supply chains has grown to 1502. The man who is strictly a lumber dealer or hardware store proprietor is part of a vanishing breed. Although professional builders still account for a substantial portion of the building supply dealer's sales, the business today is increasingly consumer-oriented.

How did this big change come about? It started with the end of World War II, when millions of men were released from the armed services and a 20-year housing and remodeling boom, which is still going strong, was launched.

The great increase in the number of homeowners dramatically broadened the market for materials required for the repair, maintenance and improvement of homes. This led to the big change in building supply marketing:

1. Lumber yards spruced up and displayed their wares in

a way laymen could understand and appreciate.

2. They added more saleable items. They became building supply dealers and invited homeowners to come in and browse around and look at their weekend specials.

3. Building supply dealers, because of their consumer contacts, became sounding boards for manufacturers, leading to the introduction of new products and materials.

4. With so many new products to sell, manufacturers had to improve their distribution systems. The result was that lumber jobbers were offered entire new lines of products for distribution, which fed their current booming business.

A typical chain store building supply center today is located on a site of 12 to 15 acres in the suburbs, probably on a highway. It has plenty of parking space, consumer conveniences like water fountains and rest rooms, and a selection of about 3,000 different items on display.

Building Supply News says the end of the expansion is nowhere in sight. Many dealers are now engaged in diverse activities such as contracting and land development and are seeking new opportunities for growth.

By Gaylord P. Godwin  
WASHINGTON UPI — The Agriculture Department has released figures showing that more than one quarter of the farm acreage in the United States produces for export.

The department said that some 80 million acres of the nation's 300 million harvested farm land produces commodities to be shipped overseas. The figure represents about the same acreage as that harvested each year in Nebraska, Iowa, Kansas and Illinois.

In 1964, farm products ex-

ported to foreign countries were worth about \$6.2 billion. About the same volume of exports is predicted for 1965. In explaining U.S. agriculture's contribution to the relief of world hunger, the department said:

"American agricultural abundance is a powerful force for world peace. Our food and other farm products are helping to relieve hunger and to promote economic growth in the newly developing countries of the world. Our wheat is providing an additional five billion loaves

of bread a year for the people of India.  
"We accept foreign currencies from countries that need our farm products but are short of dollar exchange. We also barter or trade our agricultural products for strategic defense materials — more than \$1.8 billion worth since July 1, 1964."  
A statistical report concerning U.S. farming and food shows that each U.S. citizen in 1964 consumed these and other products of farm and ranch:  
—174 pounds of beef, veal, pork, lamb, and mutton.

—39 pounds of chicken and turkey.  
—186 pounds of fruits (fresh fruit equivalent).  
—225 pounds of vegetables (fresh vegetable equivalent).  
—623 pounds of dairy products (whole milk equivalent).  
—109 pounds of potatoes and 7 pounds of sweet potatoes (fresh equivalent).  
The department said a U.S. citizen can choose from as many as 6,000 different foods when he goes to market—fresh, canned, frozen, concentrated, dehydrated, ready-mixed.

## Indiana's Soil Moisture Is Good

LAFAYETTE.—UPI—Rains have improved the soil moisture situation in Indiana, the weekly crop report from Purdue said today.

Agricultural statistician Robert E. Straszheim reported that the major farm activities during the six days considered favorable for fieldwork last week were weed control, baling hay

Mrs. Charles Smith, Mrs. Lella Herman and Dick Coffin, visited Tuesday afternoon with Mrs. Frona Coshov in Brownsburg,

er activity Saturday and Sunday.

"The corn crop appears to be doing well despite the cool weather," the report said. "About 40 per cent of the crop had reached or passed the dough stage of maturity by the weekend. This compares with 40 per cent last year and 35 per cent in 1963.

"Development is well behind the usually early development of the 1962 crop. About 5 per cent of the soybean crop has begun turning yellow, the same as both last year and usual.

"Oate harvest is nearing completion, with 95 per cent of the crop harvested by the weekend.

### Cannot Accept King's Mandate

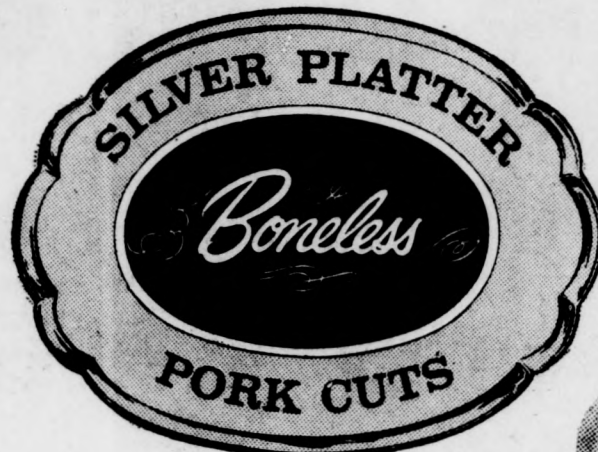

**ATHENS UPI**—Former Deputy Premier Stephen Stefanopoulos today told King Constantine he could not accept the mandate to try to form a new government and end Greece's sharpening political crisis.  
Following a 190-minute meeting with the young Greek monarch in the royal palace, Stefanopoulos told newsmen: "I did not offer any suggestion on the next step in the crisis."

He made it clear the king had not asked him to form a government if he could not get the support of the Center Union party headed by ex-Premier George Papandreou. Stefanopoulos said the king realized this would split the party and "this was not the aim of his majesty."  
But a major possibility now appearing as the next step was for the king to try to form a coalition government. Informed political sources said Constantine may make a public appeal to party leaders along this line.

# Entries Being Accepted For Jaycee Swim Meet

Entries are still being accepted for the third annual Jaycee Swim Meet to be held August 15 at 2:00 p.m. Remember the deadline for registration is 12:00 p.m. August 11. Entry blanks may be found elsewhere in this edition and are to be returned to Jaycees, Post Office Box 217, City.

The age groups, 8 and under, 10 and under, and 12 and under, will be required to swim one length in competition. Age groups 14 and under and 15 and up will be required to swim two lengths of the pool. Girls will compete against girls and boys against boys.

The five age groups will be combined into two groups for the butterfly class only. They will be 14 and under and 15 and up. We would also like to add

that the decision of the judges will overrule that of the timers. The following is a list of rules which will be strictly enforced.

**FREESTYLE**

1. A swimmer cannot touch bottom at any time.
2. At least one hand must touch the end of the pool before making a turn.

**BACKSTROKE**

1. The full distance must be swam on the back.
2. When making a turn the swimmer's hand must touch the end of the pool before he turns over on his side and the swimmer must be on his back before his feet leave the wall.
3. For a qualified finish the swimmer's hand must touch the end of the pool while he is still on his back.

**BREASTSTROKE**

1. The arms and legs must move simultaneously and cannot break the top of the water.
2. The feet cannot break the top of the water and the frog kick only will be allowed.
3. The head cannot go under water.
4. Only one stroke under water will be allowed at each end of the pool.
5. At the turns and finish both hands must touch the end of the pool at the same time.

**BUTTERFLY**

1. Both legs and arms must move simultaneously.
2. The legs may move up and down.
3. Only one stroke under water will be allowed at each end of the pool.
4. At the turns and finish both hands must touch the end of the pool at the same time.

If any swimmer obstructs or hinders another swimmer he will be immediately disqualified. An added feature will be an individual medley. It will consist of four lengths, one each of the four types of competition. This is a difficult event and only strong swimmers should enter. This event may be entered in addition to the two original entries.

On Wednesday, August 4, a canoe party of nine left Camp Voyageur for a six day excursion into the Quetico canoe country. This was a high school girls' trip led by Charlotte Erdmann. Among the group were these Greencastle people: Front, left to right: Sally Eppelheimer, Charlotte Erdmann, Vicki Erdmann. Going along as guides and to help with the heavy portaging were: John Thomas, a '65 graduate of DePauw University, and John Erdmann. Voyageur is located at Ely, Minnesota in the heart of the canoe country.

## Return From Camp Crosley

Rick and Tim Lear recently returned from Camp Crosley, on Lake Tippecanoe, North Webster, Indiana. They were sent by the local Knights Templar Chapter. For more than forty years, the Knights Templar of Indiana have sponsored a camping program for boys ten to fourteen years of age. This year the camp included two hundred boys sponsored by the various Knight Templar Chapters of Indiana.

While at camp, Tim was awarded four blue ribbons in swimming events and a water-skiing patch. Rick was awarded two blue ribbons and two third-place ribbons in water sports and general athletic events. Rick and Tim were in the group of forty-two campers awarded Honor Camper ribbons, and from this group, they received the highest honors awarded during the camp. Tim was awarded the Floyd Kresgie Medal and Rick received the Edmond F. Ball Medal for outstanding All-Around Campers. They are the first set of brothers ever to be honored with these awards.

They are the sons of Mr. and Mrs. Warren Lear of this city.

## Sox Manager Recovering

CAMBRIDGE, Mass. UPI — Boston Red Sox Manager Billy Herman today began a two-week period of recovering from an emergency operation for appendicitis.

Herman was stricken Tuesday shortly after reaching Fenway Park where the Red Sox had a two-night doubleheader scheduled against the Baltimore Orioles.

Herman complained to trainer Jack Fadden that he had an upset stomach and abdominal pain.

The 55-year-old manager was taken to Santa Maria Hospital here and upon examination his condition was diagnosed as acute appendicitis.

An hour after reaching the hospital, Herman was in the operating room.

Herman designated Coach Pete Runnels as interim manager.

# Koufax Wins 20th; Defeats N. Y. Mets 4-3

By United Press International  
By George C. Langford

Like a tightrope walker, Sandy Koufax is just happy to be in one piece.

The 29-year-old Dodger dandy, who is well on the way to having the highest season victory total ever enjoyed by a lefthander in modern National League history, because the first major leaguer to win 20 games this year by downing the New York Mets 4-3 Tuesday night.

The 20th victory was nice, admitted self-effacing Sandy, and so are the records he continues to pile up, but the big thing is being able to pitch regularly.

"With the arm trouble I had at the start of the season," Sandy said, "the feeling of being able to go out there and pitch every fourth day is one of my greatest satisfactions."

Koufax' triumph came 19 days earlier than his 20th win in 1933 a 25-5 year and with almost two months left in the regular season, he is only seven victories away from establishing a new NL high for southpaws. The most victories ever attained in one NL season by a lefty is 26, set by Rube Marquard of the Giants in 1912 and tied by Carl Hubbell of the Giants in 1936.

In other games, San Francisco remained a game off the pace set by the Dodgers, edging

Pittsburgh 4-3, Milwaukee tripped St. Louis 5-3, Cincinnati defeated Chicago 6-2, and Philadelphia blanked Houston 2-0.

Minnesota increased its American League lead to 8½ games, by defeating New York 7-3 while second-place Baltimore split a doubleheader with Boston, losing 15-5 then belting the Sox 12-4. Los Angeles stopped Cleveland 5-2, Chicago blanked Washington 6-0 and Detroit shut out Kansas City 3-0.

Koufax, who had allowed the Mets just two runs in four seasons at Dodgers Stadium, gave up three in the last two innings Tuesday night including a lead-off home run by Ron Swoboda in the ninth.

Sandy gave up seven hits and for the 15th time this year struck out 10 or more men when he whiffed 14 Mets. That raised his total this year to 267, only 39 short of his own NL record and just 81 away from Bob Feller's major league record of 348.

Al Jackson was the loser, giving up run-scoring hits to John Roseboro, Wes Parker and Jim Gilliam and an unearned run on his own wild throw.

Four other hurlers kept up the blitz toward the 20-game milestone as the Giants' Juan Marichal won his 18th, the Braves' Tony Cloninger grabbed his 16th, Sammy Ellis of Cincinnati pitched his 15th and Jim Bunning of the Phillies registered his 14th triumph.

Marichal permitted only four hits and Willie McCovey delivered his 27th home run as the Giants pined Don Cardwell with his sixth loss against 10 victories. Bill Virdon socked a two-run homer in the ninth for the Pirates but it failed to halt the Giants' winning skein, which reached seven games.

Eddie Mathews slammed his third home run in as many games to break a 2-2 tie and Gene Oliver added another for the Braves. Cloninger allowed seven safeties to outduel the Cardinals' Bob Gibson 14-9. Mathews has driven in 10 runs since Sunday.

Ellis scattered eight hits among the Cubs and Vada Pinson ripped a homer and double to pace the Reds' attack against loser Dick Ellsworth 12-9. It was the 11th time Ellis has gone the route this season. Frank Robinson doubled home two of the Cincinnati tallies.

Bunning worked out of trouble in the sixth and seventh innings when the Astros got runners as far as third base with none out to protect his fifth shutout of the year. He gave up five hits Johnny Briggs singled home the winning run for the Phils in the fifth inning after a single by Bobby Wine and a sacrifice by Bunning.

## COMMUNITY LEAGUE WINNERS

## Columbus Jets Hoe Rough Row

By United Press International

The Columbus Jets are finding their path to the International League pennant filled with all kinds of obstacles.

The latest was a stubborn Toledo defense that carried Columbus to 15 innings before the Jets could claim a 4-2 victory Tuesday night. Sam Jones, who came on in the 14th inning, received credit for his ninth victory in 13 decisions.

Columbus now enjoys a modest three-game winning streak as well as a three-game edge over second-place Toronto, which was idle.

Earlier in the day, the Mud Hens had a loss taken away and a victory added to their credit when league President Tommy Richardson ruled that the Jacksonville Suns had used an illegal player in scoring a 6-4 decision over Toledo in the first game of a doubleheader July 18.

In other games Tuesday night, the Suns won the seven-inning opener of a twinbill from Rochester 4-2, but the Red Wings bounced back for a 7-2 triumph in the nightcap and Atlanta edged Syracuse 4-3.

**Merrillville Wins**

GARY—Merrillville defeats Kalamazoo, Mich., 6-1, to advance to Senior League regional baseball tourney at Indianapolis, Ind.

## See Support Of LBJ Farm Bill

WASHINGTON UPI—Farm belt Democrats predicted today many House members from critics will support President Johnson's farm bill despite charges it will result in a "tax" to consumers of up to two cents on every loaf of bread.

The House Rules Committee Tuesday cleared the omnibus bill for floor action. House leaders delayed setting a firm date for consideration while they surveyed the measure's prospects.

The bill includes price support programs for wheat, feed grains, cotton, wool, and dairy products. It also includes a proposed new long-range land-reclamation program.

## Ohio Girl Is Beauty Queen

LONG BEACH, Calif. UPI—Gail Karen Krielow, 21, a blue-eyed blonde from Ohio who is handy with a rifle, scored a bulls-eye with the judges Tuesday night, winning the "American Beauty Queen" title in the 14th annual International Beauty Pageant.

Miss Krielow, a trim 36-24-36, now will compete against more than 30 girls from other nations for the title "Miss International Beauty" to be decided Friday night in Municipal Auditorium.
